

Speaking Characters for Education

voki

Voki enables students to express themselves using a talking character. Students can customize their Voki characters to look or sound like themselves or to assume different identities according to their assignment.

Hands on Technology. A fun way to introduce technology into the classroom. Students gain experience with a variety of web based applications.

Create and Imagine. Hundreds of different characters can be customized in an infinite number of ways, by editing accessories, colors and other attributes. Imagination is the only limit.

Memorable Learning. Vokis are an interactive, visual, and audible point of reference for lessons. This leads to stronger retention of information.

Motivate to Participate. Kids of all ages will embrace Voki. Our lesson plan database covers hundreds of different ideas in all subjects, from Kindergarteners and up to high school.

Language Tool. Voki is great for Language learning. Students can record their own voice and listen to their Voki speak it. Or they can use Text-To-Speech to listen to their Voki pronounce the text – over 25 languages are supported!

Fun. What's not to love about Voki? Expect passionate work from students with a side order of smiles.

Starting at: FREE! Basic **Voki** is FREE. **Voki Classroom** and **Voki Presenter** are enhanced tools that integrate all of the amazing Voki features with a classroom management system and a presentation creator.
