About this document

Typically embedding your Voki Scene into a web page is a simple matter of copy paste. Copy your Voki embed code from your Voki "Publish" area, and paste it into the html document which is your web page.

But some popular platforms or programs may require an extra step or two - and the procedure may not be obvious.

Please bear in mind that programs are frequently updated, and the instructions you see here will also need to be updated from time to time. Though we make every effort to do so, if you see outdated instructions - please let us know.

If the tool/program that you are using is not on this list and you believe it should be - please let us know.

Question or comments? email us at: support@voki.com
A - Blogger

Step 1: Select HTML button from the Editor

Step 2: Goto Voki Account and copy the Embed Code:
Step 3: Paste the Embed code into the HTML Editor within <BODY> Tags -

URL:   https://test98121.blogspot.com/2019/10/blog-post.html

Step 4: Click on Save and Publish-

URL:   https://test98121.blogspot.com/2019/10/blog-post.html
B - Canvas LMS

Step 1: Click on HTML Editor:

Step 3: Paste the Embed Code into the HTML Editor:

Step 4: Click on Save & Publish.
C - Google Site:

Step 1: Click on Insert >> Embed code

Step 2: Goto Voki Account and copy the “standard” Embed Code:

Version 3.3
Step 3: Insert the embed code into HTML Editor within `<body>` tags-

```html
<body> <script language="JavaScript" type="text/javascript"
src="/vhs-d.oddcost.com/voki_embed_functions.php"></script>
<script language="JavaScript" type="text/javascript">AC_Voki_Embed(225,480,"d32abb7bb8bb851b4d
c996ecd9d26892",1888275, 1, ",", 0, 1);</script>  </body>
```

Paste the HTML code from the site you want to embed.

Step 4: Click on Update
D - Smart Notebook

2. If you don’t have a login on SMART Exchange, you will need to sign up before you can download lessons, widgets, and more. In the search box, type Voki. Download the voki widget. It will be put into the Gallery in “My Content” – Interactive and Multimedia.

3. In Notebook 11, open a new page, drag the Voki Avatar widget onto the page from “My Content” - Interactive and multimedia.

5. Publish your Voki. Click in the box under Embed code or click on the Copy button. The code is selected and copied.

6. Go back to your Notebook page with the Voki widget. Click in the white box and Paste your Voki code from Voki.com into the box on your Notebook page. **Hint:** Use your keyboard shortcut (CTRL V for Windows users) to get your code copied into the widget vs. onto the screen.

7. Click go. If you are connected to the Internet, the Voki will begin to animate. You can move it around the page. You can also resize it. As you move your mouse, notice the Voki’s eyes are following it. Use the play button to start speaking. Have fun!

10. How to become a better presenter by using Voki Avatars - [http://edudemic.com/2013/03/how-to-become-a-better-presenter-by-using-voki-avatars/](http://edudemic.com/2013/03/how-to-become-a-better-presenter-by-using-voki-avatars/)
E - WordPress:

1: Click on WordPress from Share Options:

2: Enter your Domain name or Webpage URL:
3: Enter WordPress username and password:

4. Click on the image:
F - Padlets

Copy the Pickup link under embed options (Use Full length URL)

After Logging into Padlet, Click on "New Padlet".

Click on Add Attachment
Select “Link from Web” and paste in your Voki URL:

Click Submit and your Padlet with Voki is ready:
G - Moodle

Step 1: Copy the ‘No JavaScript’ code from the voki site.

Step 2: Go to Moodle, Select the Course and click on Edit Section
**Step 3:** Select the HTML option, Paste ‘Embed in iFrame’ code

**Step 4:** Click on Save Changes
