About this document

Typically embedding your Voki Scene into a web page is a simple matter of copy paste. Copy your Voki embed code from your Voki "Publish" area, and paste it into the html document which is your web page.

But some popular platforms or programs may require an extra step or two - and the procedure may not be obvious.

Please bear in mind that programs are frequently updated, and the instructions you see here will also need to be updated from time to time. Though we make every effort to do so, if you see outdated instructions - please let us know.

If the tool/program that you are using is not on this list and you believe it should be - please let us know.

Question or comments? email us at: support@voki.com
**A - Blogger**

Step 1: Select HTML button from the Editor

![HTML button](image)

Step 2: Goto Voki Account and copy the Embed Code:

![Embed Code](image)
Step 3: Paste the Embed code into the HTML Editor within `<BODY>` Tags -

![Embed code](image)

Step 4: Click on Save and Publish -

B - Canvas LMS

Step 1: Click on HTML Editor:

Step 3: Paste the Embed Code into the HTML Editor:
Step 4: Click on Save. Make sure Adobe Flash is allowed for Canvas.
Step 1: Click on Insert >> Embed code
Step 2: Goto Voki Account and copy the Embed Code:

![Copy Embed Code](image)

Step 3: Insert the embed code into HTML Editor within `<body>` tags:

![Embed from the web](image)
Step 4: Click on Update
D - Smart Notebook

1.

2. Go to SMART Exchange: http://exchange.smarttech.com/ and login. If you don’t have a login on SMART Exchange, you will need to sign up before you can download lessons, widgets, and more. In the search box, type Voki. Download the voki widget. It will be put into the Gallery in “My Content” – Interactive and Multimedia.

3. In Notebook 11, open a new page, drag the Voki Avatar widget onto the page from “My Content” - Interactive and multimedia.

5. Publish your Voki. Click in the box under Embed code or click on the Copy button. The code is selected and copied.

6. Go back to your Notebook page with the Voki widget. Click in the white box and Paste your Voki code from Voki.com into the box on your Notebook page. Hint: Use your keyboard shortcut (CTRL V for Windows users) to get your code copied into the widget vs. onto the screen.

7. Click go. If you are connected to the Internet, the Voki will begin to animate. You can move it around the page. You can also resize it. As you move your mouse, notice the Voki’s eyes are following it. Use the play button to start speaking. Have fun!

10. How to become a better presenter by using Voki Avatars - http://edudemic.com/2013/03/how-to-become-a-better-presenter-by-using-voki-avatars/
E - WordPress:
1: Click on WordPress from Share Options:

2: Enter your Domain name or Webpage URL:

Please Enter your Wordpress Blog URL:

http://myvoki.com

http://myblog.wordpress.com/

Next
3: Enter WordPress username and password:

![Login Form]

4. Click on the image:

![Voki APP]

F - Padlets

Copy the Pickup link under embed options (Use Full length URL)

After Logging into Padlet, Click on "New Padlet".

Click on Add Attachment
Select “Link from Web” and paste in your Voki URL:

Click Submit and your Padlet with Voki is ready:
G - Moodle

**Step 1**: Copy the Deprecated Code from the voki site.
**Step 2:** Go to Moodle, Select the Course and click on Edit Section

![Moodle Mountain](image)

**Step 3:** Select the HTML option, Paste the Deprecated Code
Step 4: Click on Save Changes
